

GATEWAY | Zoysiagrass

**MINIMAL  
SEED HEADS**

**AGGRESSIVE  
TRAFFIC RECOVERY**

**ELITE TURF  
QUALITY**

**RAPID  
ESTABLISHMENT**

**CLASS LEADING  
COLD TOLERANCE**

Gateway (NTEP Entry Code ZOYSIU) produces the least amount of seed heads of any commercial cultivar on the market. This exceptional characteristic along with its ability to perform at a broad range of cutting heights makes it the perfect all purpose zoysiagrass for your needs—from greens to home lawn and professional landscaping. Aggressive recovery paired with its need for less inputs, allows it to bounce back in high traffic situations making it applicable in the sports field arena. Bred to withstand cold with parents selected from Eastern Kansas, this Illinois University cultivar boasts a stable, uniform pedigree that consistently performs in the top LDS group.
