

SLIDER LS

PERENNIAL RYEGRASS

Slider LS combines high turf quality with an improved Lateral Spread™ ability to deliver an outstanding perennial ryegrass variety with top rated wear tolerance. Slider LS is able to withstand wear and recover in highly used areas with increased speed. Slider LS is dense and fine-bladed. Slider LS is gray leaf spot resistant providing confidence for use in areas susceptible to this pathogen.

EXCELLENT TURF QUALITY

IMPROVED LATERAL SPREAD ABILITY

GRAY LEAF SPOT RESISTANCE

EXCELLENT WEAR TOLERANCE

AREAS OF USE

- High-Traffic & Heavy Wear Areas
- Professional Sports Turf
- Tees & Fairways
- Sod Production
- Residential Lawns
- Warm-Season Overseeding

SEEDING

Slider LS readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 5-7 lbs/1,000 sq ft. Periodic reseeding at 3-5 lbs/1,000 sq ft maintains density for visual appearance and durability. For overseeding dormant warm season grasses, a rate of 30-40 lbs/1,000 sq ft is suggested for golf course greens. And 7-10 lbs/1,000 sq ft (300-450 lbs/acre) for tees, fairways and roughs.

MAINTENANCE

Slider LS will form a tight knit turf under a broad range of soil types and environmental conditions, from full sun to medium shade. It will mow cleanly at heights of ½" and above. Slider LS can be maintained at fairway cutting heights when appropriate management practices are observed.
