

Grand Slam G-LS

PERENNIAL RYEGRASS

Grand Slam G-LS Perennial Ryegrass is the standout from the latest generation of elite turfgrasses, engineered for top-tier performance and versatility. In the NTEP trials, it ranked among the best for overall turf quality, delivering a dense, uniform, and attractive surface across diverse environments. With high density, excellent traffic tolerance, and strong disease resistance, Grand Slam G-LS excels in demanding settings—golf fairways and tees, sports fields, residential lawns, and commercial landscapes. Its proven success across regions and climates ensures consistent, high-quality results. Whether you're maintaining a top-level playing surface or upgrading a professional lawn, Grand Slam G-LS delivers winning performance from the ground up.

TOP RATED TURF QUALITY

EXCEPTIONAL DENSITY

SUPERIOR WEAR TOLERANCE

STRONG DISEASE RESISTANCE

AREAS OF USE

- Professional Sports Turf
- Tees & Fairways
- Sod Production
- Residential Lawns
- Warm-Season Overseeding

SEEDING

Grand Slam G-LS readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 5-7 lbs/1,000 sq ft. Periodic reseeding at 3-5 lbs/1,000 sq ft maintains density for visual appearance and durability. For overseeding dormant warm season grasses, a rate of 30-40 lbs/1,000 sq ft is suggested for golf course greens. And 7-10 lbs/1,000 sq ft (300-450 lbs/acre) for tees, fairways and roughs.
